

Premier
PRINT SHIELD
BEST FOR PAPER

Non-Yellowing • Eliminate gloss differential • Extend image life

PremierArt™ Print Shield is a lacquer based protective spray designed specifically for inkjet prints. Print Shield protects all inkjet prints from moisture, UV, light, humidity, atmospheric contaminants, scuffing and fingerprints. Its low solids formulation maintains the original look of the surface of the print, eliminating gloss differential. It is a must for every fine art inkjet print that needs protection. Also works great on photo papers and canvas.

Extends Image Life! Print Shield has earned the Wilhelm Certified Testing Seal indicating the spray has been tested by Wilhelm Imaging Research, and, as shown on the table on the back, were found to increase Display Permanence ratings with the listed media.

Print Shield is the best choice for extending the life of your prints.

Volume	400 ml	5 liters
Capacity	75 8x10 prints	500 8x10 prints
Part Number	3001-101	3001-105

FEATURES

BENEFITS

COMMENTS

Low Dissolved Solids	Eliminates gloss differential	Gloss differential is common with pigment inks and photo papers. This spray eliminates this uneven gloss look for a uniform surface appearance.
Non-Yellowing Formula	Longer lasting prints	Many sprays actually accelerate yellowing. This formula will not prematurely yellow
Non-Reactive	Compatible with Epson® UltraChrome™ Ink	Some coatings are incompatible with Epson UltraChrome ink.
Water Resistant	Excellent print protection	Will protect the print from incidental water/humidity contact.
UV Inhibitor	Extends image life	Increases lightfastness, and can double the lightfastness on some papers.
Abrasion Resistant	Reduces scuffing	Matte black ink in particular is very prone to scuffing. Print Shield seals the ink for better handling.
Lacquer Based	Works on all media	Compatible with older swellable media as well as the newer micropore technology.

LIGHTFAST RATINGS

These lightfast results using inkjet prints coated with PremierArt Print Shield have been published by Wilhelm Imaging Research. Visit www.wilhelm-research.com for details.
